finish: Black, Tungsten Mica, Platinum  
Mica Laminate (edge): Whitestone  
(Muslin) Paint: Platinum Mica

Cover:  
Seating upholstery: Maharam Milestone  
Sky Frame finish: Tungsten Mica

Totally corporate compatible.  
Get Set is a complete line of flexible furniture. In addition to the chair, choose from a variety of functional tables with multiple uses and storage options, and a complete line of versatile presentation tools.

## The chair for one, and all.

There are other comfortable chairs. . .and there are other flexible chairs. But no single chair can do both with uncompromising quality and reliability. Get Set accommodates a range of work modes, offering the comfort of a task chair and the utility of a stacking chair. It's perfect for learning environments, the conference room, or pulled up to a worksurface.

This chair is designed to seat individuals of many shapes and sizes. There is a generous, well-padded seat area and back support that facilitates heat-reducing airflow. Its structure flexes naturally to counterbalance body weight and conforms to support each user. With arms or without, Get Set always offers a comfortable, personal fit every time.

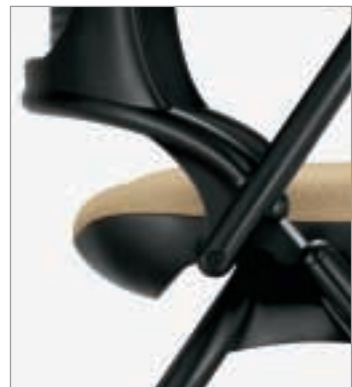

**Compact and mobile.**  
Get Set chairs stack up to four high. They roll easily wherever you need them. Durable multi-surface casters make movement efficient.

The seat folds up so multiple chairs can nest together for moving and storage.

The polymer back and arms contain a UV stabilizer, which prevents color fading and material deterioration.

The design allows users to comfortably recline, with chair arms and back moving in unison. Get Set readjusts with each shift in sitting posture.

For uncompromising style,  
comfort, and flexibility, you  
better Get Set.

Get Set sits well anywhere.  
And, when the sitting is done,  
Get Set nests, stacks, and  
stores with optimal ease and  
space efficiency.

**Customer's Own Material (COM).** Get Set accepts COM to coordinate with interiors and corporate standards programs. For information on our easy-to-use COM process, visit [allsteeloffice.com](http://allsteeloffice.com) or contact your Allsteel Dealer or Allsteel Customer Support.

## A word about our design team.

Get Set was realized by an interdisciplinary design team at Allsteel in collaboration with award-winning Cesaroni Design. This dynamic team explored the challenges of real-world learners and learning environments. They sought to empower learners, create unparalleled flexibility, achieve intuitive functionality, and accommodate a range of setups with every Get Set product.

## Respecting the environment.

At Allsteel, we help our business partners achieve a positive environmental impact and understand that environmental consciousness can be gainful. This means ensuring that all materials balance performance and sustainability. Strong, high-quality products guarantee years of use and re-manufacturability.
